Adding travel notifications through your TCB Online/Mobile banking profile is not only convenient and user-friendly but also an essential step in your travel planning checklist.

- The travel notices feature is available for debit card(s) linked to accounts within your TCB Online/Mobile banking profile.
- If no travel notice has been added within your TCB Online/Mobile banking profile, the feature will indicate that there are no travel notices on file.
- Any travel notifications you have informed your TCB Account Officer/Representative about will not appear in this feature.
- Therefore, adding your travel notifications within your TCB Online/Mobile banking profile is an improved process that allows you to view, add, and edit them as needed.

Before your trip, make sure your contact information is current. You can check and update this in your TCB Online/Mobile banking profile under **Personal Settings > Profile**.
